

PROFILE

Front-end developer with 4 years of production experience, specialising in **React** and **TypeScript**. Currently building **OpenFin** desktop trading applications for a capital markets client. Owns design-system and theming architecture, front-end test tooling, and has delivered framework migrations across React and Vue codebases. Delivery experience across financial services, healthcare and public-sector products.

SKILLS

Core: React, TypeScript, JavaScript (ES6+), HTML5, CSS3

Front-end: Redux Toolkit, RTK Query, Zod, Storybook, Tailwind CSS, design tokens, React Native, Expo, Vue 3 / Vue 2, Nuxt 3 / Nuxt 2, Pinia, Vuex

Testing: Vitest, Storybook component tests, end-to-end testing, CI test gating

Platform: OpenFin, Git, Node.js, REST API integration, npm package versioning, feature flags, Vercel

Back-end: .NET (REST APIs, service gateway), Node.js; also Unity, Flutter, WordPress

EMPLOYMENT

Rocketfin

Malta / Remote

Front-end Developer — client: capital markets / hedge fund

May 2025 – Present

- Build and ship **React + TypeScript** interfaces for a trading desktop platform on **OpenFin**, across three codebases: the launcher, the application suite it hosts, and a shared component library.
- Built the shared **error-handling architecture**: a reusable loading/error boundary, HTTP error screens for 401/403/404/504, and widget-scoped toast notifications, wired to **RTK Query**.
- Design system ownership** — implemented the colour token system across three themes (light, dark and brand), migrating from global variables to component-scoped tokens, and unified the typography and spacing scale across all three projects. Maintain the library as a versioned npm package, managing releases and downstream compatibility.
- Designed and delivered the platform theming engine and a three-tier UI density mode (compact, default, comfortable) from design specifications.
- Sole owner of the **Tailwind CSS v3 to v4 migration**, including the colour palette rewrite, breaking-change resolution and regression fixes across all consuming projects.
- Implemented **Storybook as a mandatory CI gate** across all front-end projects and wrote end-to-end and component tests; introduced **Vitest** lint rules.
- OpenFin platform engineering: window state persistence across restarts, scheduled nightly restarts, multi-window layout constraints and tab overflow handling. Also extend the **.NET** service gateway with REST endpoints, response schema changes and query filter operators.

Threls Ltd

Xewkija, Gozo, Malta

Front-end Developer

Aug 2022 – Apr 2025

- Digimed** (healthcare) — shipped a cross-platform patient app to web, iOS and Android using **React Native, Expo & TypeScript**, with **Redux**, **Axios**, **React Hook Form**, **OpenTok** video consultations and **Google Maps** integration.
- Elderly healthcare system** — built the mobile front-end in **React Native, Expo, Redux Toolkit, TypeScript & Tailwind**.
- Malta Transfer ticket kiosk** — sole front-end developer for a self-service ticketing kiosk deployed at Malta International Airport (2024), built from scratch in **Vue 3, TypeScript, Tailwind & Pinia**.
- Weavr.io framework migration** — contributed to migrating a production application from **Nuxt 2 to Nuxt 3** and **VueX to Pinia**, resolving breaking changes across the codebase.
- Other client delivery: KSU career-finder questionnaire (**Vue 2, Nuxt 2, Vue Chart.js**); Guatemala donation forms (**Vue 2**); an architect portfolio site (**Nuxt 3**); and a company site rebuild on the Statamic CMS.

Keen Ltd

Xewkija, Gozo, Malta

Apprentice Web Developer (part-time)

Feb 2019 – Jun 2022

- Built custom WordPress themes from scratch using the **Roots Sage** framework, **Laravel Blade** templating and **Tachyons CSS**.

PROJECTS

- Elemental Boi VR** — a VR combat game built in Unity. Demo: grebull.itch.io/elemental-boi-demo

EDUCATION

BSc (Honours) in Software Development — Malta College of Arts, Science & Technology

Oct 2019 – Jun 2022

Advanced Diploma in IT (Multimedia Software Development) — MCAST

Oct 2017 – Jun 2019
